## FEATURES:

Marshall Recreation Center has completed numerous infrastructure improvements, including hot water tank and coil replacements, pool heater upgrades, and controls enhancements, with gym lighting upgrades planned next. A comprehensive facility audit conducted in 2023 provided key recommendations for future improvements.

- Dedicated on-site technician to ensure consistent support and ownership of service delivery.
- Ongoing communication with Marshall Recreation stakeholders to address facility needs.
- Improved operational efficiency and energy performance through facility audits.
- Continued improvement through planned annual upgrades.

"From reliable service to excellent customer service, to the overall expertise of everyone in the company you really can't go wrong if you choose Perfection."

Associate Director of Facilities  
& Operations,  
Marshall University
